

A BIO-SHIELD AT[™]

Personal Aseptic Technique Evaluation Kit

- 12 x 100 ml bags sterile TSB, U.S.P.
- 12 x 10 ml vials sterile TSB, U.S.P
- 2 material transfer baskets
- Self adhesive ID labels
- Written procedures and procedural flow diagrams
- Includes six test exercises, independent microbiology testing and evaluation

F

Gloved Finger Tip Testing Plates

- TSA with L&P, per USP requirements
- Includes single variable test procedure protocol
- Microbiology rationale for statistical value
- Includes ten 100 mm plates per pack

B

Media-Fill Transfer Tubing Set

- Gravity fill media transfer tubing sets
- Spike to needle transfer set with pinch clamp
- Latex free
- 25 sets per EO sterilized pack

G

CSP Sterility Check System

- 30 ml vials with 10 ml sterile double strength TSB
- Simple direct culture system for sampling 10 ml of compounded sterile product
- 25 vials per package
- Includes microbiological testing and analyses

C

Andersen Single Stage Impact Air Sampler N-6

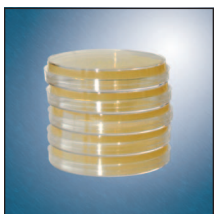

- Accurately quantifies viable airborne particulates
- High collection efficiency for all viable particulate sizes
- Remote air pump does not disrupt air being sampled
- Includes sampling module, vacuum pump, tubing, carrying case

H

Chemo Aerosol and Droplet Containment Technique Test with Visible and Ultra Violet Dye Kit and UV Lamp

- Two complete tests per kit
- Includes UVP 115 volt/6 watt handheld UV lamp
- Includes easy self analysis procedure

D BIO-SHIELD AS[™]

Volumetric Viable Particulate Air Sampling Plates

- Tryptic Soy Agar (TSA)
- 100 mm Andersen air sampler plates
- One year supply – packs ship every other month to ensure fresh media
- Each bimonthly pack includes ten plates

I

Visible and Ultra Violet Dye Only

- For Chemo Aerosol and Droplet Containment Technique Test
- 12 dye vials (six tests) per pack
- High visibility/high fluorescence dye formula

E BIO-SHIELD SS[™]

Quantitative Viable Particulate Surface Sampling Plates

- TSA with Lecithin and Polysorbate 80
- 65 mm TSA contact plates
- Plates have grid for direct counts per cm²
- One year supply – packs ship every other month to ensure fresh media
- Each bimonthly pack includes ten plates in resealable packages

J

UV Lamp Only

- For Chemo Aerosol and Droplet Containment Technique Test
- UVP Handheld UV lamp
- Six watts/115 volts
- Lightweight, easy handling longwave UV, 365 nm
